

How is **PADPRO™** different from other Padprint Manufacturers / Suppliers?

MACHINES / SPARES

- ▶▶ Apart from being machine manufacturers, we **manufacture solutions** too.
- ▶▶ The presence of **Center Marking Lights** eliminates the rejections, thus increases the quality of print and yields more output.
- ▶▶ **Auto Pad clean** reduces the drop down times and increases the earned minutes and print quality further allowing the use of machines in the production floor as well.
- ▶▶ The **Auto Adjust Work Table** improves the printing capability of machines up to 75% by maximizing the cycle speeds. Also decreases the panel load/unload times for panel format prints available according to the customer's requirements.
- ▶▶ Construction of machine layouts fulfills all **safety compliance standards**.
- ▶▶ Unlike other machine manufacturers, we offer **customization of our machines** according to the varying needs of our customers.
- ▶▶ Padpro Machine's worktable runs up and down using **separate runners** avoiding machine damages. In case of other machines, the worktable runs with the support of an alloy V-channel portion, that tends to be damaged easily within a shorter span.
- ▶▶ Padpro machines could be placed in **production floor inline** too instead of separate rooms.
- ▶▶ **Spares are easily available, good quality and cost effective** compared to other branded machines.
- ▶▶ **A higher production rate of 25-35% could be achieved** with Padpro due to the presence of certain features such as; auto pad clean system, center marking light setup and inline production.

Inks & Auxiliaries

visprox inks UR3500 & UR2500 have been certified by **Eco Passport & Oeko tex**.

These variants of inks are only Padprint inks that have **cleared ZDHC Level 3** tests till date.

Salient features of our Inks & Auxillaries:

- ▶▶ Our **extra opaque** series inks are high in opacity compared to any other ink in the market today.
- ▶▶ They fulfill all ranges of **RSL compliance**.
- ▶▶ A separate Pantone inkmixing tool would be provided along with the inks for any **Pantone reference**.
- ▶▶ We provide **separate cleaners** for cleaning inkcups & clichés. This makes it cost effective.
- ▶▶ **High durability and resistance** against iron and washing processes.
- ▶▶ Our ink hardener ratio stand to 10:1
- ▶▶ We provide 100grams tubes in the hardner pack that protects against moisture and temperature, thus **increasing the shelf life** of the hardener unlike other hardeners in the market.
- ▶▶ We provide two varieties of thinners i.e. **slow and medium**, which can be used according to the change in our climatic conditions.
- ▶▶ **Special Retarders** are available for detailed and sharp designs which are used for achieving maximum results.

Pads, Rings & Cliches

- ▶▶ We supply **anti-static pads** that have maximum pickup/release. This helps in reducing the pad clean process and increase the earned minutes and quality.
- ▶▶ Padpro pads are **highly elastic and durable** comparatively. (Min 50000pcs)
- ▶▶ Stable high hardness pads (**10-15 shores**)
- ▶▶ Padpro pads maximum **avoid any pinhole, hairline & ghost shadow** problems.
- ▶▶ Either of **Ceramic & Tungsten steel rings** could be used in the Inkcups.
- ▶▶ Rings are **easy to dismantle & fix** in Inkcups. This eliminates the inkdried particles in Inkcup. It is **increasing the life of rings & Inkcups**.
- ▶▶ Our Pads, Rings & Inkcups are cost effective, high in quality and durability.
- ▶▶ **Photo polymer plates** are provided for sharp & detailed designs to achieve maximum clarity.
- ▶▶ Both **thick and thin steel plates, Laser Etched Plates** are available according to the customer's requirements.
- ▶▶ Installation of Cliché making provisions in house is provided.

Training Programs offered:

- ▶▶ **Period on sight training programs** to staff, operators and others: Helping them out to work for bulk padprint productions & samples. Also to get the maximum output.
- ▶▶ **Safe usage of Chemicals, Machine operations, Precautionary maintenance methods, documents** what needs to follow against production, quality, safety & legal compliance.
- ▶▶ **Before and After consumption program, machine planning & test report files** which are kept in hand for quality & compliance audits.
- ▶▶ **Online training programs** are offered too.
